Balancing the Federal Budget Now!*

The time is now, the responsibility is ours, and the Framers gave us the authority to stop the current Federal spending levels which amount to no less than generational theft.

Please join us for our second annual event. Due to popular demand, our format will encompass a full day, starting mid-morning with a symposium featuring Constitutional & Legislative themed, Interactive & Educational Presentations followed by an evening of Distinguished Speakers & Dinner. Through education and awareness of Article V and the guidance of the Framers, American prosperity will once again be the Foundation of future generations.
